

Call for projects

With the financing of a one-year post-doctorate (beginning in January 2016), the partners of the chair « Promotion of the maritime pine chemistry »\* want to initiate new exploratory research projects in Bordeaux University laboratories and its partners (EPST, Bordeaux INP, Bordeaux Sciences Agro...).

## Standards of eligibility

- ▶ Thematic linked with biobased chemistry (wood, cellulose, extractable...) in order to reach molecule of interest (monomers, polymers, surfactants, aromas, solvents...)
- ▶ The international profile of the candidate, after a PhD or a first post-doctorate abroad, will be favour

## Who can apply ?

- ▶ A researcher who wants to explore a new subject
- ▶ The candidate himself with the support of the future host laboratory

## How to apply ?

- ▶ **Download your** application file on the website of the foundation: <http://www.fondation.univ-bordeaux.fr> > "les chaires" - "Valorisation de la chimie du pin maritime" - "actualité"
- ▶ **Send it** before **27 november 2015** to [fondation@univ-bordeaux.fr](mailto:fondation@univ-bordeaux.fr)

Carried by the Bordeaux University foundation in partnership with Solvay, Bordeaux University and Bordeaux INP the **chair** promote the **research** on chemistry derived from **natural resources** and especially the pine.

### ■ General information

#### ● Host laboratory

Name of the laboratory and host team: .....

.....

Global thematic: .....

Referent researcher: .....

Please attach a résumé or add a link to see the profile of the candidate (status publications, thematic of the research)

Telephone(s): .....

E-mail: .....

Professional address: .....

.....

Zip code: .....City: .....

#### ● Candidate (optional)

Name : .....

First name : .....

Date of birth : .....

International path (if required): .....

.....

Please attach a résumé

Telephone(s): .....

E-mail : .....

Professional address: .....

.....

Zip code: .....City: .....

## ■ Description of the project

### ● General information

Title : .....

Subject : .....

Key words : .....

.....

### ● Short description of the project (precise the link with biobased chemistry)

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

Eventually attach a short note (two pages)

- **Exploratory nature and interest of the research**

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

Attach the state of the art as a proof

- **Objectives et methodology**

Describe briefly the objectives and the methodology used to reach them (global phasing, techniques and methods)

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

● **Budget**

Please fill in this projected budget with the main cost items. If the budget exceeds this call for projects, please precise the other cost items and the cofinancing (IdEx, ANR, Région, other...)

On an indicative basis, the financing given by the chair for a post-doctorate can reach 65k€.

Cost items	Projected amount	Cofinancing, if required (organism and amount)
<b>Post-doctorate</b> (chair financing: 65K€ max)		
salary		
running costs		
.....		
.....		
<b>Other action</b>		
.....		
.....		
<b>Total</b>		

Send this application file to Bordeaux University foundation:  
[fondation@univ-bordeaux.fr](mailto:fondation@univ-bordeaux.fr) before **27<sup>th</sup> november 2015**.
