The jury which is composed of 5 researchers representing several fields related to research areas of chair Denis Dubourdieu will establish a ranking list based on quality criteria and will submit their proposal to the steering committee. Applicants will be notified of the results by end of December 2018/ beginning of January 2019 before submitting the PhD subject to Doctoral Schools for Life Science and Health. Once the subject is approved, the research team will have to finalize the recruitment of the PhD student by July 2019 for an effective start in autumn 2019.

### FOR PHD APPLICANT

1. **Visit** this page dedicated to Oenology Research Unit, (EA 4577, USC 1366 INRA) :

<http://www.isvv.u-bordeaux.fr/fr/oenologie.html>

2. **Contact** the unit team to present your **profile** and you **research project**: [oenoresearch@u-bordeaux.fr](mailto:oenoresearch@u-bordeaux.fr)

## Focus on chair Denis Dubourdieu – wine quality and identity

Professor Denis Dubourdieu has strongly contributed to link organoleptic component of wines with their formulation in order to enhance wine's authenticity. The chair which is named Denis Dubourdieu in memory of his heritage aims at supporting fundamental research activities in the field of oenology with a particular attention to identity and sensory quality determinants of wines. In this context, the Oenology Research Unit from the ISVV has set up a partnership with prestigious vineyards and companies specialized in the wine industry, sharing a common objective: preserving and enhancing quality of wine produced in Bordeaux region.
